HUBERT CHAROLAIS RANCH

April 1, 2025 | Tuesday, 1 p.m. | Monument, Kansas

Selling 74 Bulls & 25 Special Females

Bull Sale

LOT 53

LOT 17

LOT 75

LOT 24

Dear Charolais Friends,

It is our distinct honor to offer our breeding program for your appraisal. We are offering 74 bulls and 25 high quality females in this year's offering.

Every animal, both male and female will be 100k and PA tested. You will have the most advanced genomic information at your disposal. Actual birth, weaning, yearling, average daily gain, scrotal and the EPD's associated with these traits are available to you. Carcass EPD's are also listed along with Terminal Sire Index.

As things progress within the Charolais breed, we are more sure than ever before that the genetics we are selecting will be well-rewarded in the industry. With recent acceptance into branded beef programs, emerging retail demand opportunities, and new approaches taken by the Association to drive demand through tenderness, nutritive value and environmental impacts that matter to consumers, we foresee demand swinging even more our way in the upcoming years. As an industry this fall, we've seen the value of Charolais genetics being recognized as the national cowherd numbers remain low and as more pounds, performance and health are needed on cattle in the feedyard. Charolais are uniquely qualified to deliver quality pounds, efficient conversion, and maximize actual red meat yield - a huge point of conversation in the industry at this stage of the cattle cycle.

If you cannot attend the sale, please contact myself, Cole Renner, Colt Keffer, or bid online with DV Auction. Videos will again be available two weeks before the sale.

Please join us April 1, 2025 as we offer 74 bulls and 25 females.

Sincerely,

David & Shelby Hubert
Cole & Bailey Renner
Craig & Cheri Renner

Semen Test Information:

All bulls will be semen tested and scrotal measured prior to sale day by Dr. Kami Miller, Kansas. Please feel free to contact Dr. Miller at 785-687-8023, if you have questions. Those test results will be printed and available at the sale.

Motel Accommodations:

Sleep Inn & Suites
Oakley, Kansas
785/671-1111

Lunch:

Lunch will be served at the sale site, starting at 11:30 a.m.

First-year Breeding Guarantee**FREE DELIVERY OR \$\$\$ OFF**

Free delivery within 150 miles to central locations on major highways or pro-rated cost outside of 150 miles up to a \$500 per head maximum throughout the United States.

OR

Sale day only — Bring your trailer and we'll deduct \$100 per bull if you live outside of a 150-mile radius or \$50 per bull if you live within a 150-mile radius.

Semen Rights

HCR will retain the option to obtain semen from any bull sold at cost of collection and no further signing fees. Collection will be at the convenience of the buyer.

EPDs: EPDs current as of Feb. 1, 2025.

Charolais Average Breed EPDs: CE:

11.4, BWT: -1.2, WWT: 63.1, YWT: 114.0, Milk: 24.5, MCE: 9.6, MTNL: 56.1, SCRO: 1.0, CW: 25.3, REA: 0.70, Fat: 0.015, Marb: 0.13, TSI: 266.72

CE: Calving Ease (A higher value indicates greater calving ease)

BW: Birth Weight (A lower value indicates the difference in average birth weight)

WWT: Weaning Weight (The expected difference in average weaning weight of calves)

YWT: Yearling Weight (The expected difference in average yearling weight of progeny)

Milk: Maternal Milk (The genetic ability to express pounds of weight through dam's milk)

MCE: Calving Ease Maternal (A higher value indicates greater calving ease with a sire's daughters)

MTNL: Total Maternal (A value to predict weaning weight due to genetics for growth & maternal ability)

SCRO: Scrotal Circumference (The expected difference of bull's in circumference at yearling)

CW: Carcass Weight (Expressed in pounds and is a predictor of hot carcass weight at age constant endpoint)

REA: Ribeye Area (Expressed in square inches and results in larger ribeye's and lower yield grades)

FAT: Fat Thickness (Expressed in inches, decreased fat should result in lower yield grades)

MARB: Marbling Score (A primary component of USDA Quality grade, selection for increased Marbling Score should result in cattle with higher quality grades at the same age endpoints)

TSI: Terminal Sire Index (Is a formal method of combining many EPD traits into one single value. The TSI represents a dollar index per terminal progeny produced, ranking them for profit potential. Example: If Sire A's index is \$191.00 and Sire B's index is \$200.00, then we would expect Sire B's offspring to average \$9.00 more net return than Sire A's offspring)

This sale will be broadcast live on the internet.

We again offer you sons of our home raised sire Centurion. After four years of use and higher accuracies Centurion continues to be the performance beast. His current EPD's read as follows: Weaning Weight: +83 (Top 5% of the breed), Yearling Weight: +168 (1%), MTL: +70 (6%), Carcass Weight: ++53 (1%), REA: +1.03 (5%), Marbling: +0.30 (7%), TSI: +319.17 (2%). His progeny carry that same performance. We offer you eight sons of Centurion and four full brothers. Owned with Allison Charolais, New Castle, KY.

We start off our bull offering with two full brothers sired by EPD giant HCR Centurion 0210 Pld. Lot 1, HCR Composer 4410 Pld is deep, thick and has the eye appeal of a true herd sire. His numbers are off the charts. A +76-weaning weight EPD places him in the top 10% of the breed. Then check this out - Yearling weight +150 (3%), Carcass weight +42 (5%), Ribeye Area +0.96 (9%), Terminal Sire Index +295.95 (7%). Composer is Homozygous Polled and PA Free. His dam and granddam are thick, soggy, easy doing cows with nice udders.

Here is a powerful growth bull that will put pounds on your calves. If you feed your calves, you might take interest in these numbers. Weaning weight index 114, Yearling weight index 110. Average daily gain of 3.62 on a ration designed to grow the bulls at 3.00 pounds per day. Weaning, Yearling, Scrotal, Carcass weight and Terminal Sire Index rankings all in the top 9% of the entire Charolais breed.

Artillery is loaded and ready for battle. Big and Thick are my notes written by this bull's number. And he should be - +86 Weaning weight, +159 Yearling weight, +51 Carcass weight, +1.21 REA, +311.10 TSI. What do those numbers represent? All are in the Top 2% of the entire breed! Now let's factor in some maternal numbers. A Milk and Maternal EPD in the top 8% of the breed and his mother's nursing ratio on 5 calves is 104.0. Tested Homozygous Polled.

Another big, massive son of Centurion. His Weaning and Yearling weight are at the top of the breed and way above his peers. Again - another high-performance bull that can be a player on the maternal part of the beef segment. His dam has weaned calves that have ratioed among their contemporaries at 111, 110, 107 and 111. Lot 6 has a milk EPD ranking him in the top 15% and a Maternal weaning weight in the top 2%! Add to all of this his Carcass and REA numbers are breed leading. Tested Homozygous Polled and PA Free.

Full brothers to HCR Centurion 0210 Pld. This is your opportunity to purchase a full brother or four full brothers to the bull that as you read through the footnotes of the first six bulls in this sale is producing progeny that are off the charts on growth, carcass and maternal. Not very many bulls can combine all of these traits with numbers that rank as high as Centurion. These four E.T. brothers were not on the best of recipient cows, and you will not see exceptional individual data. What you will see is the science of EPD's say these bulls will excel in weaning weight, yearling weight, scotal, carcass weight, rib eye area, marbling and terminal sire index.

Watchman is a very thick, deep bodied bull that is as wide as a truck when you evaluate him from behind. His weaning and yearling indexes of 115 and 111 rank high in his group. Add to this chart-topping performance his low birth weight of 77 lbs. and a birth weight EPD of -4.4. His dam has weaned off calves at ratios of 101, 111 and 115. Watchman has been tested PA free and Homozygous Polled.

A personal favorite of David's. This bull just ties a combination of a lot of great things together. Let's start with his outstanding phenotype. Then let's move to his numbers. +79 weaning weight EPD to rank top 6%. +1.00 REA to also rank top 6%. His 109 weaning weight ratio places him #3 in his class and his 107 yearling weight ratio places him #2 in his class. Add to this equation his dam is a beautiful Pyramid with a nice attached udder. Tested Homozygous Polled.

Jetstream is a calving ease bull deluxe. A minus 5.8 birth weight EPD places him in the top 3% of the breed. His Affinity dam is a special one. Now take his birth weight information and factor in that he graded 4% above his peers for weaning and yearling. This is a complete sire that will fill the bill for many a commercial cattleman.

Miss HCR Silver 5007 Pld- Granddam of Lot 30

If you're looking for calving ease and a maternal bull to keep replacements, consider this guy. Negative 2.6 birth EPD and a milk EPD which ranks in the top 3% of the breed. Couple this with his 104 weaning index and his 103 yearling index and you have quite the combination bull. .

Classy head and profile with a herd bull presence, Trounce will impress you. His dam, 9025 (pictured) is as good as they get. She has weaned off three calves for a nursing ratio of 103.0. If you want complete sound bulls that will travel and get cows bred take a look right here.

With a deep hind quarter and stout type, use this Triumph to add muscle to his calves. His indexes are down but let's explain. He weaned off of a 9-year-old dam through a droughty summer. Check out weaning indexes on her first six calves: 109, 106, 110, 108, 113, 105. I would say this is the sleeper buy of the sale.

A moderate designed Triumph son with extra body and volume. Very acceptable birth weight of 85 lbs. and a low-birth-weight EPD of -2.4. His dam sells as Lot 79 and she is exceptional. Take advantage of this age advanced bull.

Miss HCR Leann 9004 Pld

Tyler Hill's Feeder Cattle Selling at Oakley, Kansas

POUNDS MATTER PROFIT COUNTS

More than anything farmers and ranchers want to hear it straight. No gimmicks. No fluff. The truth and why it matters. So, when it comes to why their next bull should be a Charolais, let's tell them how it is: pounds matter and profit counts. From added weaning weight, to increased red meat yield and higher pay weights - Charolais bulls deliver the pounds that deliver your profit.

REFERENCE SIRE

Nautilus is our home raised \$51,000 high seller in our 2023 bull sale to Reigns Ranch, Clear Lake, MN. This is the first offering of Nautilus sons we present to you. He is backed by science-based numbers that read like a true carcass bull. Carcass weight: +39 (4%), REA +0.82 (20%), Marbling +0.31 (6%). His actual IMF and REA at one year of age ranked him #1 in both categories with his contemporary group. We offer you eleven sons of Nautilus.

Playboy comes from a first calf heifer sired by the Canadian bull Elder's Houlio. His granddam is 4122, the dam of HCR Overload - herdsire at Doll Charolais in North Dakota and Thunderhead Charolais in Iowa. He commanded \$30,500 in our 2021 Bull Sale. This bull has a very balanced set of EPD's with lots of green in his EPD profile.

Elder's Houlio

Yachtsman is a performance bull that just could leave you some pretty nice daughters. First the performance part: EPD's for weaning weight, yearling weight and TSI are all in the top 30%. His individual weaning weight of 811 lbs. is impressive. Then add in the maternal figures: Milk and Maternal weaning weight both in the top 6%. His Fresh Air dam has weaned six calves for a nursing ratio of 105.2. We recommend this bull if you want to sell your calves right off the cow.

We experimented with a few straws of semen and wow did we like the results. Olympus is Homozygous Polled and is out of arguably one of the best Charolais cows in the world. His EPD profile places him in the top 15% or way better for Weaning weight, Yearling weight, Scotal, TSI, Carcass weight and REA. Olympus was the high selling bull in the 2023 Full Circle Charolais Bull Sale to respected cattleman David Mason in South Dakota.

If you're as old as I am and you like songs by Carol King you might remember the song Jazzman. The very first words of the song are "Lift Me". Let HCR Jazzman "Lift You" to new heights. He has possibly the most impressive EPD profile I've ever seen. Nine traits that read as follows and with the % at the top of the Charolais breed: Weaning weight: +90 (1%), Yearling weight (8%), Milk (25%), Maternal weaning weight (2%), Scrotal: +2.1 (1%), Carcass weight: +45 (3%), REA (15%), Marbling (7%), Terminal Sire Index: +305.40 (3%). At 842 lbs. at weaning and 1375 lbs. at yearling he ranked #1 among his contemporaries in both categories. Add all of this to a dam that has weaned four calves for a 107.5 weaning weight ratio with 102 the lowest of all her calves. And.... Homozygous Polled and PA Free.

This bull is out of a first calf heifer and boy did she do the job. He is another supe good EPD profile reading bull. This is how he rates among the breed for the following traits: Weaning weight (8%), Yearling weight (5%), Milk and Maternal weaning weight (1%), Carcass weight (4%), TSI (6%). With weaning and yearling ratios above 100 he ranks #2 in both categories among his contemporary group. This bull is a mile long and has extra frame.

Marvel was chosen from the 2021 calf crop as a sire that needed to stay on the ranch and breed. He did just that until last summer when we unexpectedly lost him. His dam as good as you can build one. He has a very solid set of EPD's highlighted by yearling weight and carcass weight. We offer you seven high quality sons of Marvel.

Calving ease written into this guy. +16.2 calving ease EPD and -3.4 birth weight EPD rank him high. This bull has been discussed at length about having the potential to be a show steer sire. His conformation is top notch. He moves freely and he has that depth and square, thick rump that sires winners. If you have been searching for a Charolais sire to produce show steer quality – take a look here.

Magnitude carries with him a nice -1.7 birth EPD and weaning and yearling ratios of 104. His nine-year-old dam has weaned seven calves at a nursing ratio of 100.4. Maternal sisters are in the herds of Lyle Peterson, MN and C&H Hay Co. of Yates Center, KS. Maternal brothers are working in the Kansas herds of Brent Wilson, George Collins and ET Farms and Cattle Co.

Sensation is a performance buster. Use this bull in a terminal sire program. Weaning and Yearling EPD's that rank in the top 7% of the entire Charolais breed. His 863 lb. weaning weight positions him #1 in his group and his 1308 lb. yearling weight places him #2. Tested Homozygous Polled.

This is a well-made son of Patriot that you find in the pen easily. His weaning weight EPD of +81 and yearling weight EPD of +145 are breed leading in the top 5%! His dam stayed on the ranch until the ripe old age of 13 years old. She calved every spring and her weaning indexes are as follows; 106, 104, 99, 101, 104, 105, 113, 104, 99. Jeff Gerstberger from Gainesville, TX and Jacob Moss from Hoxie, KS have her sons working in their herds. Jerry Arthur from Oklahoma and McDanel's 3MC Charolais in Iowa have females from her. This is the last one from 2512 and he is a good one.

Shazam sports a 72 lb. actual birth weight and a birth weight EPD of -3.1. That's a good place to start. His dam has knocked it out of the park with a nursing ratio of 110.0 on four calves. If you're looking for a boost with marbling, consider his +0.26 EPD.

Complete and correct describes this bull. A full brother sold in our 2023 Bull Sale to Sandhill Charolais in Oklahoma for \$10,000. Really nice birth numbers coming forward with an 86 lb. birth weight and a -3.0 birth EPD. He knocked on the door for an 800 lb. weaning weight and ratioed 103 amongst his peers. His dam is a beautifully uddered female and has a nursing ratio of 105.8 on four calves. And if you are looking for bulls with marbling credentials check out his +0.25 marbling EPD.

We start the female sale off with a beautiful young cow. She is an easy keeper and has that depth of body we like to see in our females. She is a daughter of Riptide – the Riptide sons were popular in our sale last year commanding a \$9,375 average on 16 bulls. She has really nice calving numbers as her Calving Ease score of +19.6 ranks her in the top 2% of the breed. And how about her Milk EPD: +38 to position her top 2%.

Lot 75A: Polled heifer calf #5103, born 1-30-25, BW: 65 lbs., sired by LT Atlas 0251 PLD.

Another nice young female who ties in maternally with Lot 77 as her dam #6513 is also the granddam of 3131. Her pedigree is full of successful herd sires used at HCR: Pyramid, Solution, Fresh Air, Rancher. She has a nice TSI score which ranks her top 15% but how about this Milk EPD: +44 to rank as high as you can go 1%.

Lot 78A: Polled heifer calf #5107, born 2-4-25, BW: 51 lbs., sired by LT Atlas 0251 PLD.

An Olympus daughter that will not disappoint. Her dam has produced four calves (all females) and touts a 106.0 nursing ratio. And her dam is as fertile as you can get - she calved as a two-year-old and has calved within one week of that date four years in a row! Olivia has a 718 lb, adjusted weaning weight to index 112. Her weaning weight EPD is +77 and yearling weight EPD is +132, both high performance statistics.

Yes she's deep, thick and has that pattern that you have to appreciate. Her dam features Rancher and Bluegrass – two bulls known for beef production. Her full brother sells as Lot 39 and as mentioned in his footnotes their dam, #4080 has a great track record at our ranch. We listed each calf's weaning weight ratio – if you do the math that gives her a nursing ratio of 104.6 on eight natural born calves.

Heavy production in this pedigree. Her young dam, #0247 has weaned off three calves for a nursing ratio of 103.7 highlighted by her very first calf HCR Caesar 2115 PLD weaning at a 111 ratio and going to good friends John Allison and David Carter in Kentucky. Her granddam also incorporates production and longevity to her pedigree weaning nine progeny with a nursing ratio of 104. I would say the guesswork has been taken out with this female.

Growth genetics in this heifer's pedigree. Her young dam in three tries has not ratioed a calf under 100. First out the gate she produced a bull with a 103-ratio going to rancher Vince Wagoner, Lenora, KS, then she ratioed 111 on her next bull and he is working in the Brittan Ellis herd at Scott City. Now this gal comes in with a 102 ratio. Her granddam, #5070 is a favorite here at HCR – she is the mother of herd sire HCR Pyramid 9072 PLD. One last note – this heifer possesses a +34 Milk EPD to rank her in the top 7% of the Charolais breed.
